BILLIONS.

Figures That Stagger All But Mathematical Minds

Required to Indicate the Capital Stock of Trusts and Combines Incorporated the Past Year.

Two thousand corporations, chartered and authorized to issue capital stock to the amount of three and a half billion dollars, is the record of the State of New Jersey for the fiscal year of the Corporation Department, which ended September 30th.

Nearly 200 of these corporations are each capitalized at \$2,000,000 and upward. Six hundred of them each have a capitalization of \$1,000,000 or better.

One hundred of the charters of the year were granted to absolute trusts, and several hundred went to "mushroom" concerns. Of the latter class the American Pottery Company, capitalized at \$27,000,000 is a shining example. It never materialized except on paper.

Fifteen thousand trusts and combinations and other corporations, in every section of America, are to-day operating under the liberal and exclusive laws of New Jersey. Upward of 200 of the number are simon-pure trusts, organized to control absolutely various products and enterprises.

By the incorporation of these concerns the State has legalized the issuance of stock aggregating upward of \$8,000,000,000.

Of the issued capital stock conservative authorities estimate one-half as water.

When the creation of trusts in America began New Jersey went into the market and offered such favorable inducements in the way of legislation as to soon earn for herself the sobriquet of "the cradle of monopolies."

The early reputation of the State has been sustained, and 95 per cent. of the big combinations of capital of the country have secured legal life within its borders.

But this year witnessed the formation of more trusts and large corporations than any other in the history of the country, and the business of the State has far surpassed the expectations of its most sanguine trust advocates.

What a splendid type of tireless activity is the sun as the psalmist describes it issuing like "a bridegroom from his chamber and rejoicing like a strong man to run a race." Every man ought to rise in the morning refreshed by slumber and renewed by rest, eager for the struggle of the day. But how rarely this is so. Most people rise still unrefreshed, and dreading the strain of the day's labors. The cause of this is deficient vitality and behind this lies a deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man strength and energy, as will Dr. Pierce's Golden Medical Discovery. It does this by increasing the quantity and quality of the blood enfeebled organs, and gives that sense of strength and power which makes the struggle of life a joy. The "good feeling" which follows the use of "Golden Medical Discovery" is not due to stimulation, as it contains no alcohol, whiskey or other intoxicant. It does not brace up the body, but builds it up into a condition of sound health.

Answer of Charles C. Fair.

San Francisco, Oct. 13.—Charles L. Fair has filed an amended answer to the petition of Mrs. Nettie R. Craven, who asked for an allowance of \$5,000 a month out of the late Senator James G. Fair's estate. The answer declares that the alleged marriage contract on which Mrs. Craven bases her claim is a forgery and in the main reiterates statements formerly made by the defense.
